## Welcome

A huge warm welcome to the fourth leg and the Super Finals of the BHPA British Accuracy Cup celebrating the 50<sup>th</sup> Anniversary of Accuracy in the United Kingdom.

When competitions first started on both Hang Gliders and Parachutes it was all about surviving taking to the skies, followed by landing on targets. Now our parachutes have become paragliders and our grandfather, the Hang Glider, continues to soar the skies. Both air sports now capable of flying cross country.

Huge thanks to Arthur Bentley at Birdwings Airsports, Lee Bligh at Cloudbase, the team at Green Dragons and to all the sponsors for supporting the event.

It's my honour to bring together a cross section of pilots in the BHPA together this weekend and I wish you all great success. Fly high, far and land safely!

Best Wishes

Andy Shaw

## Important Notes for Pilots

Paragliding Pilots will have spot checks on certification of equipment. Non certified equipment will lead to disqualification.

Classic parachute pilots will have spot checks on BHPA recommended practices.

Local Rules and other information can be found on the noticeboard.

ALL Pilot briefings are Mandatory.

Please note that some pilots will be flying in both the paragliding and parascending events.

Please keep an eye on the Whatsapp Info Board. If you miss key updates the Event Directors are not responsible for any delays in your flights.

### Hang Gliders

The competition will be scored using GPS traces. Your instrument needs to be capable of this, or use your phone to record, and then emailed to the scorer. If using an instrument please bring any cable you need to retrieve the traces. Phone options include, on Android, Tracker (<https://mycloudbase.com/tracker/download.htm>) or on Apple (iOS), FlySkyHy, <https://apps.apple.com/us/app/flyskyhy/id516879039>. Please test out your tracking prior to the competition. Any queries please email [richard.hunt@mycloudbase.co.uk](mailto:richard.hunt@mycloudbase.co.uk).

A Telegram group will be set up to coordinate retrievals amongst ourselves, at present there is no centralised retrieve point but we will ensure there is at least one person available to commence retrievals. On landing please immediately share your location, and then once you have made your way to a pick-up point.

## EMERGENCY PROCEDURE

In an emergency the following procedure shall be followed:

- The Meet Director is to take charge. If he / she is not available then the nominated deputy shall take charge.
- All towing shall be suspended.
- Any airborne pilots should land as soon as they are aware of the accident.
- The casualty is to be assessed by the nearest First Aider.
- The First Aider decides if the emergency services should be called and communicates this to the Meet Director.
- The Meet Director calls the guard room (01285 868247) by phone to request the emergency services. Use the phrase "casualty fallen from height in remote location" if an aviation incident. No other person should contact the emergency services as this could cause confusion.
- Access to site for the emergency services will be via the east crash gate. The Meet Director shall appoint someone to open the crash gate and guide the ambulance.
- Where necessary first aid is to be carried out on the casualty until the Ambulance crew arrive and take over.

Nearest A&E facility: Cheltenham General Hospital, Sandford Road, Cheltenham, Gloucester. GL53 7AN. Tel 08454 222222

### First Aid Box locations:

- 1 x First Aid Box at each launch point
- 1 x First Aid Box at the target
- 1 x First Aid Box at each winch
- 1 x First Aid Box in each organisation vehicle

### First Response First Aider List:

- Andy Shaw (Event Director)
- Matthew Bignell (Safety Officer)
- Tyron Paul (Tow Operator)

All incidents must be reported to the Event Safety Officer, an Accident Report Form filled in and submitted to the BHPA.

If the incident is fatal or potentially fatal or any other serious incidents the BHPA must be informed immediately on 0116 289 4316.
